Betreff: Broadcasting patients : a new free media service for patient organisations from HSCNetwork International

## INVITATION TO JOIN BROADCASTING PATIENTS:

Health and Social Campaigners Network International is soon to launch a new global service called Broadcasting Patients.

This proposed free service would offer patient organisations greater media exposure

The system would work as follows:

- \* Whenever a media representative wished to gain the opinion of patient organisations or health advocates on a specific health / disease related issue;

- \* HSCNetwork would act as an intermediary and filter these requests;

- \* HSCNetwork would then provide the journalist with contact details of the most appropriate patient organisation in their databank

This service is provided independently by HSCNetwork and is not funded by any outside means including governments,

pharmaceutical or any other industry or organisation.

this service will provide a valuable source of independent patient expertise for radio, television and the press.

If you are interested in being involved with Broadcasting Patients

Could you please complete the form below and email it back to

[info@patient-view.com](mailto:info@patient-view.com) <<mailto:info@patient-view.com>>

<<mailto:info@patient-view.com>>

If you have any queries our contact details are to be found at the end of this email
